

Christmas Tree Chipping Program

The Public Works Department will be chipping Christmas trees in order to recycle rather than placing them into land fills. Please Note: Groot will not pickup your tree. To protect Public Works employees, please follow these guidelines:

Remove the stand & hardware

Remove ornaments, lights & decorations

Remove plastic bags, any strings, or wire used to move or tie up your tree

CHRISTMAS TREE PICK UP SCHEDULE

North of Main Street:

Place tree at curb early on
Monday, January 10

South of Main Street:

Place tree at curb early on
Monday, January 17

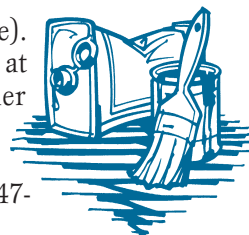

Hazardous Household Waste Collection

Household Chemical Waste Collections & Locations

- **November 20, 2004 – Mundelein**
Metra Train Station Parking Lot
at 205 Archer Avenue

All events take place on Saturdays from 8:00 a.m.

to 2:30 p.m. (rain or shine). Residents can call SWALCO at 847-336-9340 for further information on the HCW collection events or call Barrington Public Works at 847-381-7903.

President, Trustees to be Elected in April

The next Consolidated Election will be held April 5, 2005. The positions of Village President (4-Year Term), Village Trustees (three positions for a 4-Year Term), and Village Clerk (4-Year Term) will be on the ballot. Candidates interested in running for these positions may have begun circulating their petitions for signature. Candidate forms can be obtained from the Village Clerk's office at the Barrington Village Hall or from the State Board of Elections. Filing petitions with the local election official will be conducted

January 15 – 25, 2005.

It is important to remember that a voter may only sign one independent candidate's petition for each office to be elected. Voters may not sign more than 3 Trustee Candidate petitions, as there are only 3 seats available. Should you have specific questions regarding proper completion and filing of nomination papers, please contact the State Board of Elections at 217/782-4141 or visit the website at www.elections.state.il.us.

Snow Removal Tips

If you shovel a small area of your parkway along the curb line and opposite the direction of traffic for approximately six to eight feet, less snow will be deposited at the end of your driveway when the plows widen the street from curb to curb.
